

TELEPORTATION SONG

Uncle Sam, yes, they took him,
Put him in the intelligence funnel,
Minutes after as a kid they sent him
Through the bottomless time tunnel,
But his mind was made strong
By the hand of *the* Almighty,
So he could forward in this generation,
Triumphantly,
Won't you help Andy sing?
Teleportation song!
Teleportation song!
It's a song of freedom!
Teleportation song!

Emancipate yourself from quantum slavery;
None but ourselves can free our lives.
Have no fear for Tesla free energy,
'Cause now we can jump through time!
How long shall they steal our future,
While we stand aside and look? Oh-oh!
They got to heap up the defense profits
And keep up the corporate book!

Won't you help Andy sing, yeah?
Teleportation song!
Teleportation song!
Teleportation song!
Teleportation song!
It's a song of freedom!
The teleportation song!

One more time...
Oh, teleportation song!
Help Andy to sing it out!
Teleportation song!
Song for your freedom, yeah!
Teleportation song!
Teleportation song, yeah!
Teleportation song!
A song of freedom!
Oh, the teleportation song!

Cry quantum freedom!
